

No More War

© Kenn Wanaku 2010

Why question why |
We do these things to other people
The answer is –
A very long tale

Time and time again |
We hear the message in the news
Man, Woman died |
For nothing much

Many don't seem to know
Just what this life is all about
We know what we know |
And nothing more

Child is born, it grows up |
To see a world of violent cycles |
This ain't no life for me, it says

What u gonna do |
Nowhere to run
What u gonna do |
Nowhere to hide

What we gonna do |
Letz try to stop this
Wild cycle (of resentment)
Wild cycle
Together, yes we can | make this
change

No more war
No more war
Fighting 'n killing each other
Is not the way to go

No more war
No more war
Learn to live as brothers 'n sisters
Or we all die as fools

We can change
We can change it
Let's give it a try

Think of the children
(For) They keep watching
The things you do
We live just to be | what we want to
be

Give them peace and love
Not these mindless acts of violence
Hold your baby in your arms
Give them much love

Time and time again |
We hear the news on the radio
Man woman dies | ...
Please, no more war!
End.
